TruDefinition® Oakridge® Shingles

TruDefinition® Oakridge® Shingles feature the bold contrast and deep dimension of TruDefinition® color in a shingle that provides a beautiful step up from traditional three-tab shingles.

At Owens Corning Roofing, TruDefinition® is our color design platform trademark on shingles that are specially formulated to capture the bright, vibrant hues and deep, dramatic shades that showcase the aesthetic appeal of your home. We use multiple granule colors and shadowing to provide a spectacular look that will enhance your home and complement its natural surroundings. See the difference with TruDefinition® Oakridge® Shingles.

- Limited Lifetime Warranty*/† (for as long as you own your home)
- 110/130** MPH Wind Resistance Limited Warranty*
- Algae Resistance Limited Warranty*

Home sweet home.

Home is where you want to feel the most comfortable and protected. It can be a source of pride and an expression of your personality. But when the time comes to purchase a new roof, it's easy to feel overwhelmed. Don't worry. Owens Corning Roofing and your contractor are here to help. We'll make it easy for you to select the right shingle for your type of home and sense of style. You can feel confident about choosing our roofing products — Owens Corning has been a recognized leader in the building industry for over 75 years. And we take pride in being America's #1 Roofing Brand.⁵

ENERGY STAR® is for roofs too.

Similar to the energy-efficient appliances in your home, roofing products can provide energy-saving qualities. Owens Corning™ TruDefinition® Oakridge® Roofing Shingles in Shasta White can help reduce your energy bills when installed properly. These shingles reflect solar energy, decreasing the amount of heat transferred to a home's interior — and the amount of air conditioning needed to keep it comfortable. Actual savings will vary based on geographic location and individual building characteristics. Call 1-800-GET-PINK® or 1-888-STAR-YES for more information.

Shasta White color meets ENERGY STAR[®] requirements for initial solar reflectance of 0.25 and 3-year aged solar reflectance of 0.15; 2013 California Building Energy Efficiency Standards, Title 24, Part 6 requirements; rated by the Cool Roof Rating Council (CRRC).

* See actual warranty for complete details, limitations and requirements.

** 110 MPH is standard with 4-nail application. 130 MPH is applicable only with 6-nail application and Owens Corning[™] Starter Shingle products application along eaves and rakes in accordance with installation instructions.

† Owens Corning strives to accurately reproduce photographs of shingles. Due to manufacturing variances, the limitations of the printing process and the variations in natural lighting, actual shingle colors and granule blends may vary from the photo. The pitch of your roof can also impact how a shingle looks on your home. We suggest that you view a roofing display or several shingles to get a better idea of the actual color. To accurately judge your shingle and color choice, we recommend that you view it on an actual roof with a pitch similar to your own roof prior to making your final selection. Color availability subject to change without notice. Ask your professional roofing contractor for samples of colors available in your area.

‡ 40-year Limited Warranty on commercial projects.

The Total Protection Roofing System™[^]

Working together to help protect and enhance your home.

It takes more than just shingles to protect your home. It takes an integrated system of components and layers designed to withstand the forces of nature outside while controlling temperature and humidity inside.

The Owens Corning™ Total Protection Roofing System™[^] gives you the assurance that all of your Owens Corning™ roofing components are working together to help increase the performance of your roof — and to enhance the comfort and enjoyment of those who live beneath it.

[^]Excludes non-Owens Corning™ roofing products such as flashing, fasteners and wood decking.

Help prevent heat and moisture buildup in the attic by allowing fresh air to enter the attic.

Help protect vulnerable areas where water can do the most damage: eaves, valleys, dormers and skylights.

Help prevent damage from wind-driven rain by providing an additional layer of protection between the shingles and roof deck.

Enjoy clean lines and faster, easier installation by eliminating the need to cut shingle tabs.

Choose from a variety of durable styles and colors that provide the first line of defense against the elements.

Help protect your roofing system by allowing heat and moisture to escape from the attic.

Help protect the ridge vent and add an attractive, finished look to your entire roof.
