

3 OPTIONS IN 1 ROOFTOP SUPPORT:

1 STRUT
Attach clamps & fittings for conduit & other applications

2 PIPE SEAT
Place up to 3" pipe directly on the pipe saddle

3 DRILL SIDE
Use the drill guide to attach your own accessories

PRODUCT DESCRIPTION:

The M-Hex rooftop pipe support is designed to support a variety of rooftop piping and conduit. The unique design provides 3 options for use: the strut side can be used to attach clamps & fittings for conduit & other applications, the pipe seat side can be used to place up to a 3" pipe directly on the pipe saddle, and the drill side allows attachment of other accessories.

MATERIAL: PVC with 3% CPE (Chlorinated Polyethylene) for UV resistance & low-temperature performance.
